

PROBASIC

Step profile.

PROBASIC serves primarily as a stable, protective element for step edges. This profile, however, is also ideal for adding a new and attractive highlight to stairways.

PROBASIC Decor-step profile in shiny stainless steel I.4301 (V2A).

PROBASIC Florentiner-step profile in matt silver anodized aluminium.

EXPERT Tip!

How to cut stainless steel correctly:

Cut the stainless steel profile with a special stainless steel cutting disc. Advantage: extended durability and virtually colourless and angle-free cut. Please note: do not allow sparks to fly in the direction of the stainless steel profile –danger of rusting!

PROBASIC Florentiner-step profile in solid brass.

PROBASIC – Florentiner- and Decor-Step profile in metal.

Materials and colours
